

Manufacturing Days 2021 Along the 550 Corridor

Manufacturing Day spotlights New Mexico's distinct and innovative manufacturing businesses, products, as well as the more than 27,000 New Mexicans working in the manufacturing industry. It's an opportunity to enhance public knowledge about the economic impact of manufacturing in New Mexico.

New Mexico's Manufacturing Economic Impact

- ✦ Manufacturing accounted for \$4.54 billion in exports in 2019 for New Mexico's economy representing almost 95 percent of all goods exports from the state.
- ✦ Exports of New Mexico manufactured goods have increased approximately 220 percent from 2010 to 2019 in economic growth.
- ✦ In 2019 small businesses comprised 84 percent of ALL exporters in our state and they are the largest job creators in New Mexico.
- ✦ Manufacturing jobs in New Mexico, which include technology, highly skilled and vocational positions, provided workers with respectable compensations averaging \$59,500 in 2019.

Student Impact & Host Offerings

This is the 9th year New Mexico has participated in the national October event

- ✦ Annually introducing more than 3700 students to manufacturing careers
- ✦ Hosts have included commercial woodworking and lighting factories, food producers and breweries, manufacturers of windows, medical devices, solar parts, plastics and more.
- ✦ Hosting more than 150 students at manufacturing facilities and supporting 30–40 related events.
- ✦ Legislators, mayors, city councilors and county commissioners participated; proclamations were issued by the governor and local governments.
