

Overview, September 2021

Why Build With Robots exists

Bottom
Line
Up
Front

We are not in business to make robots.

We are in business to make workers' lives better.

We do this because we believe in the dignity and value of work and in the people who do that work.

BUILD WITH
ROBOTS

Robots are changing the nature of work

Manufacturing

Construction

Fast Food

Warehousing

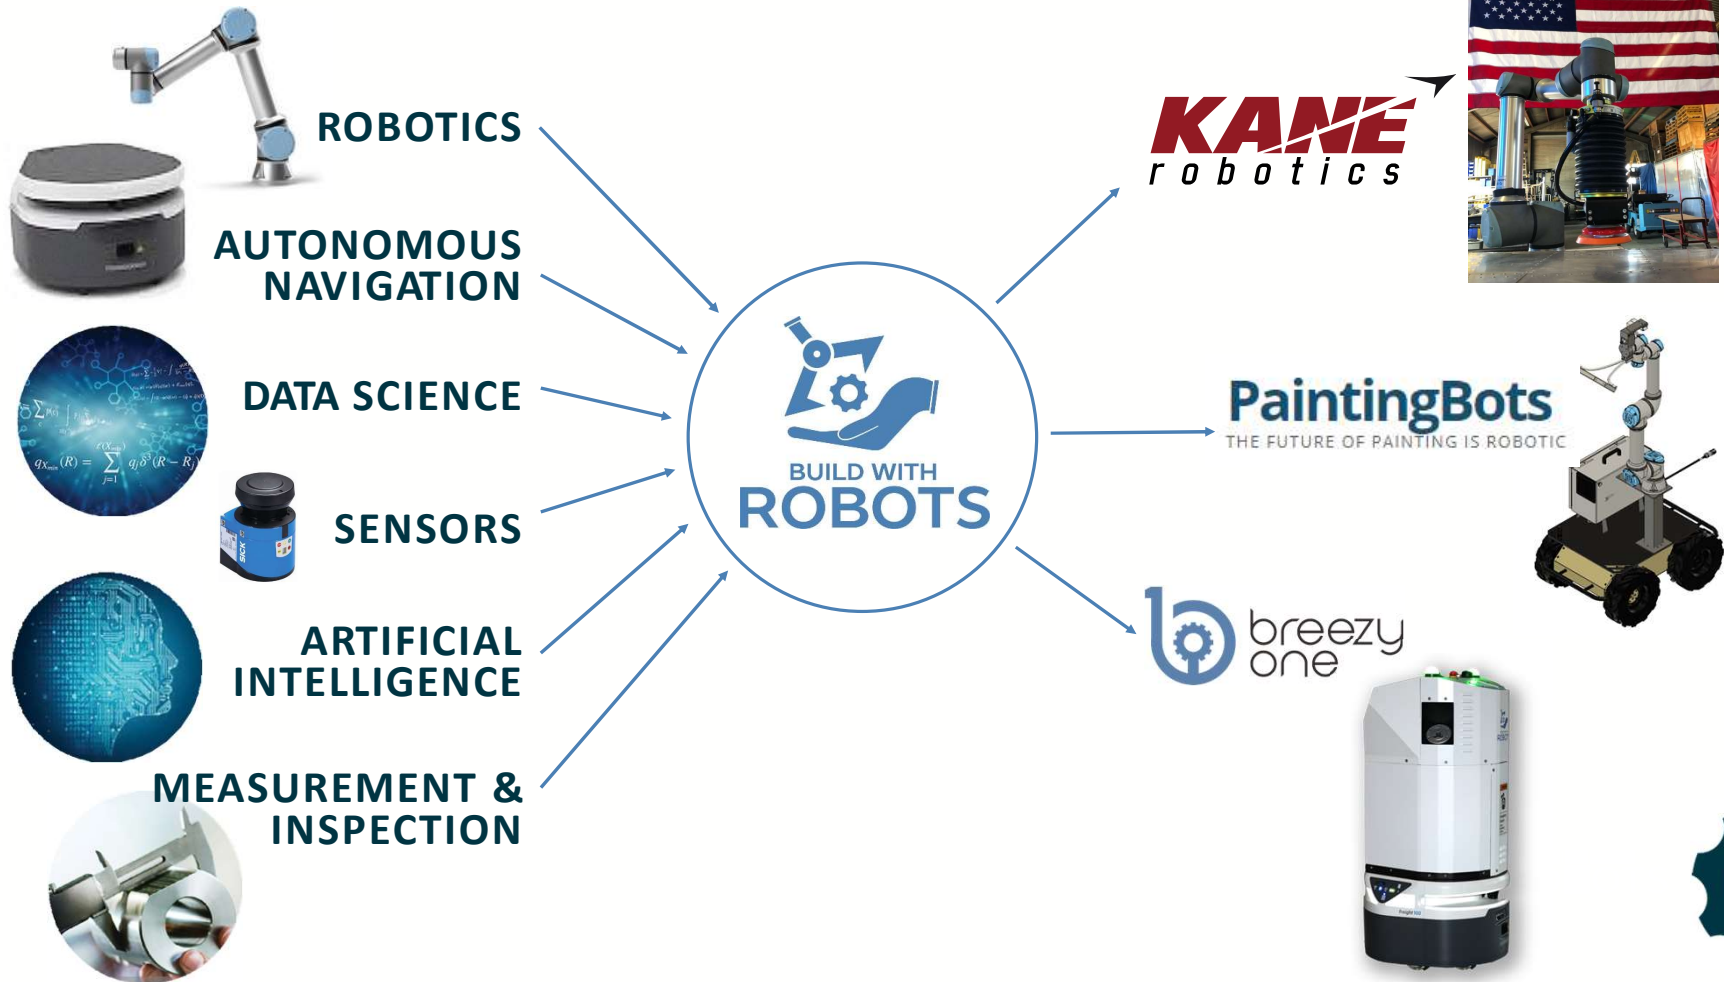

Film & Photography

and many other industries ...

THE FUTURE OF PAINTING IS ROBOTIC

Autonomous painting at
commercial construction sites

Our response to COVID-19

Hugely Efficient.

One robot can disinfect > 100,000 square feet in <1 hour.

Extremely Effective.

Thoroughly tested by US government, 6 log kill: 99.9999% pathogens rendered ineffective.

Long Term Protection.

Leaves a protection layer on surfaces for up to 21 days.

Broad Penetration.

Penetrates fabrics, gets under surfaces, and around fixtures.

Ready for Business.

Within 30 minutes of disinfection.
