What is REBP?

Connect *rural businesses* and *ag producers* to the resources they need to:

1. help grow their business
2. reduce energy consumption
3. implement renewable energy systems

How does it work?

Business Benefits

We look at all aspects of the business' current energy usage

1. Decrease energy bills, **increase** bottom line
2. No-cost, customized **energy site assessment**
3. Operations **efficiency** analysis
4. Guidance on how to implement (and pay for) **renewable energy solutions**

Creating Impact

- 300+ businesses have reached out for assistance
- 2021 total estimated savings (without solar) was over \$40,000

Creating Impact

Over 300 businesses have reached out for assistance through the program
