**expertise**

Our experts and industry resource network help create the change that can make the difference. We provide expertise in results-driven methodologies, best practices, and innovative technologies designed to increase your profitability.

LET'S TALK

**robot room**

Once we are able to open our doors again to visitors and clients in-person, new technologies demos will be available—from additive manufacturing, to optical sorting equipment, and collaborative robotics with you!

As part of NMMEP's mission to strengthen and grow New Mexico's manufacturing, NMMEP is introducing CoBot technology to give New Mexico manufacturers a competitive advantage through advanced automation. In partnership with Build With Robots, we offer CoBot seminars and hands-on application demos.
