# What Robotics Student Learned from MFG Day April 2023

- High School Graduation is needed for success
- Be able to remember and connect information is important
- Teachers teach number, math, patterns is part of design
- Degree from a university has labs, projects and access to materials to invent
- We can adapt to technology and increase usage
- Time with people is great!
- MFG is around us and students can offer improvements.
- Seeing MFG in our community
- Consumers buy things
